

Financial Aid Dependent Housing Agreement 2023-2024

Culver-Stockton College is dedicated to the development of each student's ability to function and communicate with other people and to foster a sense of responsibility and respect for others. The situations that arise in a group living environment provide a very real laboratory for students to grow in their knowledge of themselves.

According to the college policy, as stated in the Culver-Stockton College Cat Tracker:

"Because of the college's belief in the value of residential life, residence hall living is required of all full-time students. Exceptions to this policy are students who are married or living with their parents or a legal guardian. In addition, students age 21 or older by September 1 of the academic year in question that do not receive institutional financial aid may choose to live off-campus."

This means that a student who receives institutional funding must either live on campus, or commute from their parents' home address, which should be within 50 miles of driving distance to the college. If a student does not adhere to the housing policy, institutional funding will be removed.

Dependent students who change their housing status from "on-campus" to "commuting from parent's home address" will receive a reduction of up to \$5,000 in financial assistance per academic year as their funding was based upon accruing room/board charges.

Please sign below and return this form to the financial aid office to indicate that you have been informed of the housing policy. Financial aid will be removed from your account if this form is not returned. If you have questions, please contact the financial aid office at 573-288-6307.

By signing this form, the student certifies they understand the housing policy and what repercussions may occur if they do not adhere to the policy.
